

OUR PULSE JUST GOT STRONGER.

Introducing the NEW PEARLIZED PULSE.™

The new Pearlized Pulse features unequalled hooking characteristics with The SUPER-FLEX RESIN™ Reactive Urethane coverstock. The single-density, pressurized polymer core minimizes the over/under reaction of the strong, yet forgiving arc. And the unique POWER POINT PIN™ technology enhances hitting power by concentrating more weight towards the top of the core. The Smoke Blue Pearlized Pulse. The beat goes on.

COLUMBIA 300

Columbia bowls the world over.®
