

# BUD II: THE 2-PIECE BLACK U-DOT WITH MUSCLE!

Since its introduction, the (B)lack (U)-(D)ot, or BUD, has been the most powerful and most winning ball on the professional bowlers tour. Columbia 300 now introduces BUD II (Black U-Dot 2-piece), leader of a new generation of high performance, urethane bowling balls. By combining the urethane cover stock previously reserved exclusively for the BUD with a new calibrated core design, the BUD II emerges as the most systematically advanced 2-piece urethane ball on the market.

Featuring the strong backend reaction of the Black U-Dot and heavy roll of the U<sup>2</sup>, Columbia's BUD II will add mass and muscle to your game!

Color: Black. Weights: 14, 15 and 16 lbs.
