

PRETTY. DEADLY.

THE CUDA IS BACK.

Only this time it's dressed to kill. Introducing the Cuda™ 2000 – a lethal combination of beauty and brawn. This pin crusher features our new Holo-Flex™ shell so it goes farther and grips the lane like never before. And we've incorporated a flip block with our exclusive core-in-a-core technology for maximum snap on the backend. It's a deadly combination that lets you move inside when the heads break down with a reaction that powers down the lane and hooks back to the pocket. The Cuda 2000. Easy on the eye. Hard on anything that gets in its way.
