

Yeah...that's right!

Your EGO

did that!

When you let your Ego™ speak for itself, the competition will be speechless. The new Ego from FlipSide™ provides the perfect combination of roll in oil and control in the midlane, allowing the UFD™ (Ultimate Friction in Dry) coverstock to take over for a quick response down the lane. So it's OK to be an Ego maniac! You'll drive your competition crazy.
