- NE2 Hybrid is the perfect mix of solid and pearl materials and is designed for great length and strong back end. The Modified Messenger core is one of the most successful cores in Columbia 300's great history.

- The Freeze Hybrid is finished with 800, 1000, 2000 Abralon and then Factory Polished for a great reaction on medium to dry lanes.

- The Freeze Hybrid takes the popular Freeze line to new levels of performance for any bowler.

- Recommended Cleaner: Powerhouse™ Energizer Cleaner
