

QUAKE
CERAMICORE

INTRODUCTION OF THE QUAKE
October 31, 1995

PREPARE FOR ANOTHER QUAKE.

INTRODUCTION OF THE NEW
GOLD PEARL QUAKE
December 21, 1995

INTRODUCING THE NEW GOLD PEARL QUAKE.

Like the Ultra Violet Quake, the Gold Pearl Quake features the undrillable Ceramicore™, the densest pure ceramic component ever used in bowling manufacturing. Combined with new Flexcel™ G-I coverstock it yields a higher C.O.R. (Coefficient of Restitution). This creates a livelier pocket hit with more messengers and fewer single pin leaves. Shake your game, as well as your opponents, with the new Gold Pearl Quake.

COLUMBIA 300

Columbia bowls the world over.
