

IconTM 300

The Perfect Name for the Perfect Game.

This is one high roller! A top-of-its-game performer. Our fearless, new Icon300TM puts on a stunning performance. It features our new MusclePlusTM coverstock with more teeth to bite through heavy oil. The MusclePlus incorporates a large, solid additive which creates a more porous shell. This coverstock gives the Icon300 the most hook of the Icon family and a strong continuous motion.

The perfect family is now complete. Icon300---the perfect name for the perfect game!
