

PURE Swing

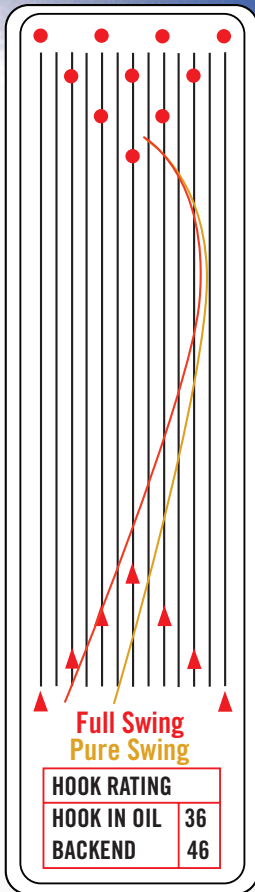

The Pure Swing is the "best of the best" from Columbia 300. It features our Full Swing Core surrounded by a new coverstock called Full Tilt 5.0 Pearl. For this release we have smoothed out the 5.0 nodules making the shell more responsive to friction and delivering a ball that goes longer, but makes a stronger move downlane on more medium conditions. This ball is stronger in the backend than any High Performance ball in our history and will provide bowlers a complementary product to our Full Swing and Bedlam series balls. Pure Swing's performance is as pure as anything you have ever encountered. When it's clear that you need to strike, Pure Swing is that ball that will be there for you from the first frame to the last. Performance that's PURE and good – only from Columbia 300.
