

A photograph of a bowling lane with several white bowling pins scattered across it. The pins are in various positions, some standing upright and others knocked over. The lane is made of polished wood and has a dark gutter on either side. The background is dark, making the pins stand out.

A Scout's Motto:
Be prepared.

A Scout is trustworthy since it's made by Columbia 300. A Scout is brave new technology with enhanced performance features. A Scout is helpful thanks to its innovative three-piece, offset puck construction. A Scout is obedient and gets down the lane easily with good backend flare. As a result, a Scout is not friendly, courteous or kind to bowling pins. But a Scout is always thrifty. Just check the price. If you're prepared to take your game to the next level, Scout is your next ball. Scout's honor.
