

STINGRAY/C
CERAMICORE

Put the hammer down on your competition.

Pick up a Stingray™/C from COLUMBIA 300 - the first non-reactive urethane ball with the exclusive Ceramicore™ technology that has produced 8 straight wins on the PBA Tour. Stingray™/C redefines high performance in a non-reactive, 2-piece urethane bowling ball. Inside the high-differential Rg bulb-shaped internal assembly is a maximum density Ceramicore™ satellite. The performing combination of Ceramicore™ and the high density flip block enable the Stingray™/C to outhook any other non-reactive urethane bowling ball on the market. Pick up a Stingray™/C at your local ProShop today.

COLUMBIA 300

Columbia bowls the world over.®
