16#	2.47	.040

- Classic Urethane is a new urethane shell for Columbia 300 designed to give you that smooth and controllable reaction you remember from the good old urethane days!
- The Classic U2 is finished with 800 Abranet™, 1000, 2000 Abralon®
- The low RG and Medium Differential Resurgence core has been used in some of Columbia 300's greatest balls and works great for many different styles.

- Recommended Cleaner:  
Powerhouse™  
Clean n' Dull
