

NATURE USES A GRAIN
OF SAND TO CREATE
THE PERFECT PEARL.

WE, ON THE OTHER HAND, USE TITANIUM.

You don't have to wait for Mother Nature anymore to get the perfect pearl. The TOUR BOSS™ Pearl has a higher rate of rotation and the strongest backend snap of any BOSS ball. And with its unique TiCOR™ Titanium/Ceramic core-in-a-core system and SUPER-FLEX™ Resin coverstock, the TOUR BOSS Pearl gives bowlers the revs they need and the backend hitting power they want. The TOUR BOSS Pearl. Adding a new shine to bowling.
