

Wicked Encounter

Columbia bowls the world over.®

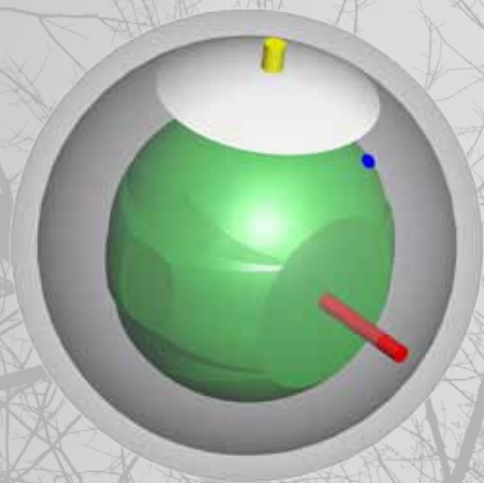

800-531-5920 | COLUMBIA300.COM

Encounter some WICKED scores.

WICKED ENCOUNTER

HIGH PERFORMANCE

We keep making it easier to Bowl the World Over!

ELASTIN 8.0 SUPREME (HYBRID)

The Elastin breakthrough technology has been taken to new levels for the Wicked Encounter. An entirely new chemical additive has been used to create more friction in the front of the lane, while helping the Wicked Encounter have a stronger motion through the back part of the lane, even on heavier oil conditions.

ENCOUNTER CORE

The Encounter core is the same dynamic core found in the original Encounter and Dark Encounter. Bowlers have come to love the Encounter core for the performance it provides through strong and versatile performance characteristics.

WHAT TO EXPECT

The new Elastin coverstock provides a motion characteristic for this category that Columbia 300 fans have been asking for... **more overall hook!** Once again, the Elastin cover along with the Encounter core are a great combination for strong hook and wicked strikes!

Color Orange / Black / Silver
