

Firebolt

New Firebolt™ strikes it rich!

The Ebonite® Firebolt™ won its first two PBA tournaments and has gone on to win more, plus many local tourneys.

The pros are, well, *thunderstruck*. They knew the Firebolt was *charged* with extra urethane to keep the pins lower for improved carrying power. But consecutive wins in its first two appearances and more?

Believe it.

Ebonite Firebolt. The exceptional performance ball *charged* with extra urethane. Shouldn't it be your new ball?

Watch for Ebonite on the Pro Tour on
NBC and ABC.

The world's leading
maker of urethane balls.
