

"Thanks, Ebonite for giving me an edge"

"The Gyro I helped me up my average from 168 to 196 - with a beautiful 300 game along the way!"

Bernie Ring
Peoria, Illinois

After seeing other bowlers' success with the new soft polyester Gyro I, Bernie Ring bought one. Was he glad he did!

"I like the way the Gyro I hooks into the pins with unbelievable punching power. It has an easy roll and lots of control."

Now, fellow bowlers at Cross-Road Lanes are watching Bernie's success with the Gyro I, and buying their own Gyro I's. Shouldn't you be, too?

"I can't tell you how much the Magnum 7 has done for me and my game! Since I got it, my average has skyrocketed!"

Michael Smith
Parma Heights, Ohio

Michael Smith was discouraged with his performance at the lanes. On "the brink of quitting entirely," the 16-year-old bowler "thought maybe a new ball would help. So I read the different bowling charts and decided the Magnum 7 was the ball I wanted. I'll never be sorry for that decision!"

Michael's 150 average zoomed to a 185 — in a men's league yet! What's more, Michael and his Magnum 7 stole the show at the P.B.A. Junior Match Game Tournament in Cleveland. He fired a 10-game, 2015-series, including a 300, to win the tournament!

Impressed with the way it handles the lanes and its pin action, Michael is convinced that the Magnum 7 is the ball for him. Shouldn't it be your ball, too?

"Even on a light pocket hit, the Magnum 10 has the power to scatter the pins. I've got a '300' under my belt to prove it!"

Doc Jones
Eugene, Oregon

When Doc says he likes the way the Magnum 10 handles fast lane conditions, he means it! Rolling a new Magnum 10 on the first night of his summer league — after finishing the winter league with another ball and a 188 average — Doc shot a 4-game, 952 series, including a 300! Then, the very next week he came back with a big 970 series.

Doc began using Ebonite balls in 1966, and his reputation in bowling circles has been rolling right along ever since.

He's sold on the Magnum 10 ... and once you try it, you will be, too. It's just what the "Doc" ordered!
