

BITE ME.

OPTYX
BY EBONITE

Just when you thought you had seen it all from Ebonite®, along comes the new OPTYX™ Spider. It may look harmless, but this clear reactive resin ball strikes on light to medium oil with a hook that makes grown men shudder. With a sharper breakpoint angle and more overall hook potential than the OPTYX Formula 1, the new OPTYX Spider is the ball to pick up when you're ready to put some real bite back into your game.

THE DIFFERENCE IS CLEAR.
