

THIS ISN'T JUST A NEW BALL, IT'S A NEW FRONTIER.

TOTAL NV is the first series to roll out Ebonite's Traxion Reactive 0.30 coverstock – a breakthrough procedure that chemically alters the surface of balls, pushing their backend performance further than ever before. What will we think of next?

TOTAL NV

Style Number **029744-77114**

Coverstock (Reactive)	Traxion Reactive 0.30
Box Finish	4000 Grit Abralon / Polished with Powerhouse Factory Finish Ball Polish
Color	Navy/Purple/Gold
Core Design	Spike Symmetrical Mass Bias
Mass Bias Location	6 3/4" from the pin
Mass Bias Strength	0.022
Weights	12, 13, 14, 15, 16
Flare Potential	High
Absorption Rate	11.9
Surface Traction	0.30
Length	24 (scale of 1-50)
Hook Potential (Overall Hook)	45 (scale of 1-50)
Breakpoint Angle	12.95 (scale of 1-15)
Best Lane Condition	Medium to Heavy
Recommended Ball Cleaner	Powerhouse Energizer Ball Cleaner
Recommended Ball Polish	Powerhouse Factory Finish.
