

IT'S ALWAYS WISE TO BE FRIENDLY AND POLITE
TO YOUR COMPETITORS. YOU MAY NEED THEIR HELP
LIFTING THE TROPHY INTO YOUR CAR.

In bowling, as in life, it's good to be a gentleman. One who demonstrates impeccable sportsmanship, and always seems to have a big-ass prize to lug home. That's exactly what you'll be with our devastating new Seawolf and Werewolf balls.

The first ball to feature our MegaBite™ ST (for "super tack") reactive veneer, Seawolf is easy to get down the lane, combining phenomenal balance and carry-down navigating power for a more continuous hook through the pocket. In fact, MegaBite ST reactive is the strongest backend hooking veneer we've ever produced.

The awesome new Werewolf revs early, yet retains excellent backend hooking power due to new MegaBite ST veneer and a medium-low RG core design complete with a double-thick flip block.

See these amazing balls at your pro shop today. Then, don't forget to smile and be friendly to everyone you beat.
