3-D HAMMER
CHARCOAL
BLUE

3-D HAMMER
MIDNIGHT
PEARL

The 3-D HAMMER[®] add a new dimension to bowling.

The eye opening 3-D HAMMER[®] series from Fabal™.

Highly aggressive Neoflex cover stock surrounds a triple density, high torque core. Both 3-D HAMMERS are medium/low R.G. with high flare potential.

The sand finish 3-D Charcoal Blue develops

a high "rev" rate and strong hook (18+) for medium to heavy oil conditions. Factory polished, the 3-D Midnight Pearl maintains it's axis of rotation and hook (18) to get the ball further down the lane on medium to light oil.

The 3-D HAMMER, seeing is believing.
