

It's Coast To Coast Hook, Baby!

4D
HPT
HAMMER

**Turning The Corner Just Took On
A Whole New Meaning!**

THE 4D-HPT HAMMER

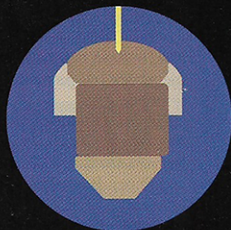

The union of two of the best technologies available in bowling resulting in one great ball. The 4D-HPT combines the most successful Core Concept of the '90's Hammer Offset Technology, (HOT), with Hammer Particle Technology, (HPT), Faball's newest entry into the "Actives" coverstock market.

THE 4D-HPT ACTION

The 4D Core gives the ball drive and revs. The HPT cover creates an awesome amount of friction which initiates the ball's hook.

THE 4D-HPT RESULTS

From the time of release, it's **WHOOSH** the ball is covering boards and then **BAM** it's on the pins. It's Coast to Coast Hook, Baby!

THE 4D-HPT CORE

the most successful core concept of the '90's in a four density version for 2000.

Available Coast To Coast and Worldwide through Professional Pro Shops
