

THE STRING OF PEARLS CONTINUES...

A String of Pearls that every bowler can treasure

The Hammer Pearl, the first pearlized urethane bowling ball is now currently available in two colors and formulations. The New Red Hammer Pearl is designed to go long like the Blue Pearl but with more reaction in the back end.

Like all Hammer and Nail bowling balls, the Pearls have a dynamically shaped core for balance, and a solid urethane shell that is skillfully crafted to strike with all the power of a hammer. Each and every Fab ball is then individually tested for hardness, roundness, weight, and balance.

All Hammer and Nail balls are available in 13-16 pound weights. Contact your local area Pro Shop to purchase these fine balls.

RED HAMMER
For Oily Lanes

BLACK HAMMER
For Medium Oily Lanes

BLUE NAIL
For Dry Lanes

**NOTHING STRIKES LIKE A HAMMER
OR DRIVES LIKE A NAIL**
