

PUNISH THE PINS

WITH THE NEW PURPLE REACTIVE HAMMER®

It's time to make the pins pay for just standing around!

Purple Reactive
Core Design

Performance engineered and tested by the HAMMER Pro Staff, The New Purple® Reactive HAMMER takes more than a bite out of the pins...it eats them up.

Designed for more hook with less track flare, the technologically enhanced Pin eating Purple Reactive coverstock is paired with a bulb shaped core design for hard hitting performance and precision control.
