

THE
BOWLER'S
COMPANY™

FLASH FLOOD

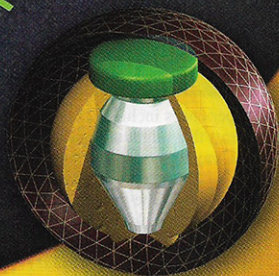

FEATURES

- MONSOON™ XT Particle Coverstock
- Multi-Density With Power Mass™ Technology
- Low RG (2.52)

BENEFITS

- Heavy Mid-lane Traction With a Wide Footprint
- Aggressive Yet Smooth Ball Motion
- Fast Revving Weight Block Which Behaves Violently Towards Dry Boards

Are you looking for the answer to heavy oil conditions?
Brace yourself...the **Flash Flood™** is coming.

The **Flash Flood™** by STORM® features a powerful **MONSOON™ XT Solid Particle** coverstock for major traction in oil. This ground-breaking material, when paired up with the *Power Mass™ Technology* weight block, increases front-end friction and results in more overall hook.

Designed for "flooded" lane conditions, the **Flash Flood™** will have you believing wetter is better!
