

STATEMENT SOLID

Nothing Hits Like A Hammer.®

MAKE A STATEMENT!!!

Because sometimes, winning just isn't enough!

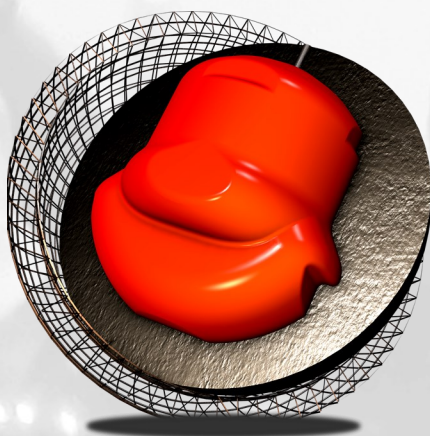

AGGRESSION SOLID CFI

Aggression Solid CFI creates more traction than any coverstock Hammer currently offers. Combined with a 500/2000 sanded finish, you can expect extreme traction in heavy oil and great continuation downlane and through the pins.

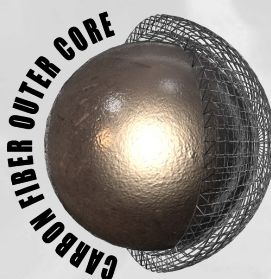

STATEMENT

The Statement core is a very low RG, high differential, strong asymmetric core designed to rev up in the heaviest of oils. Its intricate design has the majority of the mass located at the bottom of the core which will help this core retain as much energy as possible.

CARBON FIBER **INFUSED**
3 YEAR WARRANTY
