

That's MR. bowling god to you.

Longer and stronger than any ball in the Hammer line, The Deal will bring the competition to their knees. Featuring the all-new asymmetrical low-mass bias AON core and particle pearl coverstock for medium to heavy oil, The Deal creates one of the most extreme entry angles of any ball. It's not about striking anymore. It's about striking with power that will make them worship you like the god you are.
