

# DON'T JUST STRIKE THE PINS. THROW THEM DOWN AND MAKE THEM *BEG* FOR MERCY.

**More vicious. More capability.  
More Hammer.**

Take a good look at the new Vicious Particle by Hammer. It's going to save your butt when you're up against killer lane conditions. Using PowerGrip particle veneer, Vicious Particle delivers the strong angle of the original Vicious on the toughest oily lanes. With an ER-29 rating, it's aggressive early on, but keeps its brute force on the backend. Prepare to dominate under any condition.
