**More length. More precision.
More Hammer.**

When lane conditions change, don't even think about shifting your position. Whip out the new Vicious Particle Pearl by Hammer, and re-direct your game. With pearlized coverstock for a clean continuous roll through the fronts, and PowerWhip Particle veneer for extra drive on the backend, Vicious Particle Pearl puts you back in control. Factor in a low mass bias asymmetric core, and you've got that killer Vicious angle.
