

ONLY THE "BUZZSAW"

PAT. # 5,238,245

COMES WITH A DIAMOND INSIDE

AND 20% MORE INERTIA THAN ALL OTHER SHAPES

To All at Lane #1,

I would just like to take this time to thank everyone at Lane #1 for coming out with the Buzzsaw. For years, I have always been able to hit the pocket consistently, but my carry was usually the difference between winning a tournament or just barely cashing. Not anymore. Since purchasing your Buzzsaw, I shot my first 800 series three weeks later, and have raised my average nearly twenty pins! (Not to mention all the money I've been winning in pot games.)

The best thing that I could say about the Buzzsaw is the true consistency you get with each shot. I've never had that with any other ball that I own, nor have I seen it with any other ball that other people use. It is truly a piece of bowling equipment that I think any good to great bowler should not be without.

Sincerely yours,
Jack Swan

To: Creator of the Buzzsaw

I am writing this letter to tell you what the Buzzsaw has done for me. I have held a 199 average for the past 3 seasons. I have bought several bowling balls over the years, but never have I bought a ball and had the instant success that the Buzzsaw has given me. I bought the ball on Thursday. That night I had 727 in league play. The next night I used it for two games and had 256 and 240. On Saturday I took the ball to the Wisconsin State Bowling Tournament. I then proceeded to shoot scores of 711, 747, and 673 for a tournament leading scratch all events score of 2131! My handicap score of 2245 is also in 1st place and a all time stat record.

So, you can see how the Buzzsaw "buzzed" through the state tournament. I credit much of my success to the Buzzsaw. I had three 700's in three days in three different houses, two of those I had never been to before.

When anyone asks me about bowling balls I tell them there is only one, the "Buzzsaw". There is no doubt in my mind that the Buzzsaw is truly the best ball on the market today!

Sincerely,
Jerry Grams
