

**The Buzzsaw Strikes
again, again, & again**

Revolutionary!

© 1997 LANE #1

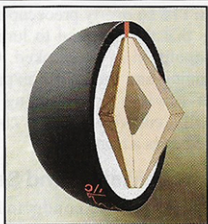

BUZZSAW/C

*For the first time a 14 lb. and 15 lb. ball has the 16 lb. ball's weight block, giving the lighter balls even greater dynamics, which translates into more **hook and hitting power!!***

The Buzzsaw's patented diamond weight block has now been enhanced with the addition of a super dense, drillable, cerami, mini diamond core. The offset towards the top mini diamond increases the revolutions and track flare delivering more hook and destruction at the back-end.

**The patented
diamond shape
generates 20%
MORE POWER**

Patent No. 5,238,245
