

# Lane #1's, "Buzzsaw Bowling Balls"...

...Strike and Strike, and could strike for you...!!!

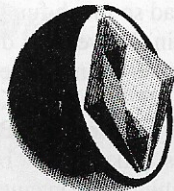

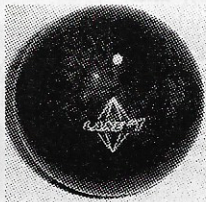

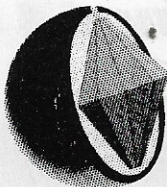

Featuring the New...

"Pro Purple Buzzsaw"

the "Buzzsaw/C Carbide"

[www.lane1bowling.com](http://www.lane1bowling.com)

the "Buzzsaw/C2 Pearl Cherry"

By eliminating wasted material, this gyroscopically shaped core, rotates faster and longer, creating 20% more energy than any other shaped core. This means devastating power at the pins. And, because this diamond shape is symmetrical from top to bottom, it always rolls consistent. Putting all this inside today's reactive resin and particle shells, gives you the reaction and power needed for you to win...!!

For bowlers not in need of a 16 lb. ball, Lane #1's lighter weight Saw's come fully packed with the 16 lb. ball core, power boosting these light weights for optimum performance.

This feature comes 1st and only from Lane #1.
