

# Light em up!!

## CARBIDE/R

### Cherry

# BOMB

Taking the power of our Super Carbide Bomb core, and wrapping it with our new Carbide Resin coverstock, Lane #1 creates the most powerful reactive ball ever made. When your particle balls are hooking too early, and your normal resin ball just won't cut it, Lane #1's new Carbide/R Cherry Bomb gives you backend explosion never seen before!!

P.S. Remember...Nothing explodes the pins better than a Bomb..!
