

Now!
Continuing in the proud tradition of winning Magnum Bowling Balls, Ebonite introduces the Earl Anthony Magnum 12 (Patent Pending).

The new Magnum 12 is the world's first combination Polyester/Urethane bowling ball.

This logical marriage of Polyester and Urethane combines the superior

tracking characteristics of Polyester with the proven hitting power of Urethane.

The Earl Anthony Magnum 12 is designed with a highly resilient, easy release core, the world's most popular

weight block and the most advanced outer shell known to science.

You may never know how good you can be unless you roll a Magnum 12.

FOR A MILLION DOLLAR PERFORMANCE BOWL WITH AN EBONITE MAGNUM BALL

There is an Ebonite Magnum for every style of play and lane condition.

MAGNUM 5 Hard Rubber
MAGNUM 8 Hard Polyester

For greater control on dry conditions.

MAGNUM 10 Soft Rubber

Great traction and hitting power on medium conditions.

MAGNUM 11 Soft Rubber/Urethane
MAGNUM 12 Soft Polyester/Urethane

Designed for harder lane surfaces. Does not over react.
