

## TOTAL ANNIHILATION

Combining the first ever **MoRich/Brunswick** coverstock formulation, densest body and largest flare potential, Total Annihilation provides unmatched coverstock versatility, and extremely fast rev rate, and the overall hook of particle with the explosive backend of reactive!

Mass Bias Diff: .018  
60 Degree Spin Time: 6.3 Sec.  
Flare Potential: Large  
Differential: .054  
RG: 2.514  
Cover: C4 Enhanced Reactivated  
Type: Super Aggressive Reactive  
Factory Finish: 800 Grit Matte  
Available Weights: 12-16 lbs.

## RAVAGE

With its **RAV** (Rotational Angular Velocity) reactive coverstock and strongest mass bias strength (.018), Ravage was designed to clear the heads easily and respond firmly at the break point, increasing entry angle on less than oily lane conditions.

Mass Bias Diff: .018  
60 Degree Spin Time: 6.5 Sec.  
Flare Potential: Med/Large  
Differential: .047  
RG: 2.530  
Cover: RAV  
Type: Reactive  
Factory Finish: Polished  
Available Weights: 12-16 lbs.

## MAYHEM

Mass Bias Diff: .015  
60 Degree Spin Time: 6.9 Sec.  
Flare Potential: Large  
Differential: .050  
RG: 2.512  
Cover: Versa-Tech HMF  
Type: High Load Particle  
Factory Finish: 1500 Smooth  
Available Weights: 13-16 lbs.

## ONSLAUGHT

Mass Bias Diff: .017  
60 Degree Spin Time: 6.7 Sec.  
Flare Potential: Medium  
Differential: .044  
RG: 2.528  
Cover: Versa-Tech L  
Type: Light Load Pearl Particle  
Factory Finish: Polished  
Available Weights: 13-16 lbs.

With the lightly loaded, polished pearl particle, Versa-Tech L cover, densest upper flip block, and medium flare potential (.044 diff.), Onslaught was designed to push through the fronts on medium oiled lane conditions and corner hard at the break point!

With our most aggressive cover ever, Versa-Tech HMF (High Molecular Friction) high load particle, densest lower torque block, and large flare potential, Mayhem was designed for those bowlers seeking a heavy oil ball that reads the mid-lane!
