

LIMITED EDITION RELEASE AVAILABLE 6/15/2022

# REVOLT UPRISING™

### MEDIUM-HEAVY OIL

The Revolt™ is back! The Limited Edition Revolt™ Uprising features the original Vanquish™ core design and new Helix™ MXC Solid Reactive cover stock. The Helix™ cover stock was used on the Revolt™ Havoc previously and this new formulation is modified using new technology to handle modern lane oil and higher volume patterns. The Revolt™ Uprising is the strongest ball in the Revolt™ line ever made by MOTIV®.

### VANQUISH™ WEIGHT BLOCK

The Vanquish™ core provides the Uprising a low RG and high differential. The low RG makes it easy to rev and the differential produces massive track flare.

15# RG: 2.47 | 15# Diff: .056 | Flare: 5"+

### HELIX™ MXC SOLID REACTIVE

Helix™ MXC Solid Reactive cover stock features Helix™ technology components previously utilized in the Revolt™ Havoc paired with MXC strength from the Forge™ Flare. This combination provides incredible strength and traction on higher volume patterns, creating a smooth and powerful ball motion that allows you to dominate the lanes!

### 1000 GRIT LSS FINISH

Tuned with a dull-sanded 1000 Grit LSS finish, the Revolt™ Uprising offers plenty of traction for a smooth and powerful reaction on fresh oil.
