

AVAILABLE WORLDWIDE 10/12/2022
SKY RAPTOR™

HEAVY OIL

The Sky Raptor™ brings the legendary Raptor™ line soaring back for worldwide release! Featuring the new Affliction™ V2 core and new Dynamic Infusion™ pearl reactive technology, the Sky Raptor™ is specifically designed to create downlane motion in heavy oil environments. You can have confidence that the Sky Raptor™ will clear the front of the lanes with ease and come screeching back with speed to attack the pocket.

DYNAMIC INFUSION™ PEARL REACTIVE

Extensive testing went into the development of the new Dynamic Infusion™ Pearl Reactive cover stock for the Sky Raptor™. It digs in the oil and creates the angle needed on the backend as heavy oil patterns begin to break down and transition. Utilizing a stronger formulation of the Infusion™ coverstock system, Dynamic Infusion™ Pearl Reactive technology packs a larger punch than previous versions.

AFFLICTION™ V2 WEIGHT BLOCK

The new Affliction™ V2 core features a density upgrade, which gives the Sky Raptor™ higher rev potential and more track flare.
15# RG: 2.48 | 15# Diff: .055 | Flare: 5"+

5000 GRIT LSS FINISH

A 5000 grit LSS finish was used to provide more traction in heavier volumes of oil. We intentionally left the polish off the Sky Raptor™ to give it more bite!
