

# ALL THE WAY UP

## LIGHT OIL

The brand new MOTIV® Top Thrill™ takes high friction performance to a new level! This latest advancement for dry lanes offers a boosted core and brand new coverstock, a significant step up from the original Thrill™ models in both core and coverstock technology. The Top Thrill™ provides bowlers with more options for attacking drier lanes and higher friction lane surfaces.

## TURMOIL™ XP PEARL REACTIVE

Developed as a dry lane complement to the Infusion™ reactive cover, the Turmoil™ XP shell provides as much down lane shape with less traction in the oil to allow for use on dry lanes. When Infusion™ reactive balls are too strong, the Top Thrill™ will be a great option for even the most competitive bowlers.

## HALOGEN™ V2 WEIGHT BLOCK

the Top Thrill™ features a new, modified Halogen™ core, the Halogen™ V2, that is uniquely suited for dry lanes, but with a strong enough core to allow for more angles and versatility of play.

## 5500 GRIT LSP FINISH

A 5500 Grit LSP finish helps the Top Thrill™ to get down lane in high friction and drier lane conditions.
