

Roto-Star

Bowling Ball

"I hit the lanes big with the RC-5 ball. My 260 average in league play came in 9 games right after my RC-5 was drilled!"

Randy Madderas, Abilene, Texas

5/8/80	Abilene Lanes	243	280	245
5/11/80	Abilene Lanes	269	289	298
5/11/80	Abilene Lanes	238	199	279

Randy Madderas has the scores to prove it. That's why he says, "My RC-5 proved to me it's a better bowling ball for the money."
(Total 9-game score of 2,340 verified by the Abilene City Association Secretary)

RC-5

"RC", for Rubber Core... "5" for these five important features:

1. High porosity soft rubber shell with special additive for improved tracking.
2. Homogenized *rubber core* for a truer rolling ball.
3. Complete Weight Distribution for perfect balance.
4. Complete Weight Distribution to give the bowler a hard-driving ball.
5. Meets ABC specifications and is approved for PBA tour play.

R-C 5 from Roto-Grip! All the good qualities of yesterday's solid rubber bowling balls; all the advantages of today's technology.
