

RG5

the

"Lane Gripper"

Roto-Grip RC-5 High porosity soft rubber shell with special additive eats up the oil on today's modern lanes

Roto-Grip RC-5 Homogenized rubber core is more uniform in density which produces a truer rolling ball

Roto-Grip RC-5 Every ball is custom balanced to perfection thanks to our complete weight distribution concept. Top weight, side weight and finger weight drilled on center

Roto-Grip RC-5 Another new profit-maker from Roto-Grip that lets you customize a powerful, hard driving ball for your customer's game

Roto-Grip RC-5 Meets ABC specifications. Available in 15 and 16 lb. weights with top weights from 3 to 4.5 oz. Also approved for use on PBA Tour. **Place your orders, now:**

roto-grip inc.

17-19 South Main Street, Port Chester, N.Y. 10573
