

Excellence Redefined

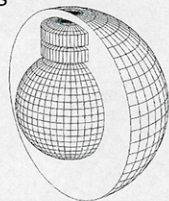

The New *Tour Edition* Sunstorm

Every time we create a new reactive ball we add a few things to our technological bag of tricks. The new *Tour Edition* Sunstorm has them all. A versatile reactive cover stock that lends itself to any finish, from coarse sanding to high polish. A super dense core that causes a center heavy roll, coupled with a dual flip block that creates tremendous back end directional shift and energy release. Core and flip blocks both carefully matched to the shell material. Drilling versatility from straight over label to exotic as you dare.

In short, a refined all-around bowling machine from the premier creators of reactive technology.

Apply the power of the *Tour Edition* Sunstorm to your game!
