

The Desire to Win is Powerful...

...the Passion that Fuels this Desire is Unstoppable!

Fuel™

Technology is constantly changing and Roto Grip® is on the forefront with the new Fuel™.

The Fuel has an all new Cyclotron™ core with strategically placed cyclotronic rings located on the surface of the weight block and the Synchrotron™ mass controller located on the inside to enhance rev and read in the mid-lane with a sharper breakpoint.

Wrapping this core is the all new Super Sure Grip Traction Plus™ Particle coverstock containing a medium percentage of accelerated particles for increased traction in the heaviest of oils.

The time has come when science and technology can definitely help your game and the Fuel is the answer.
