

# THE FUTURE IS BRIGHT

**Kris Prather**

3 PBA National Titles  
1 PBA Major Title

Some refer to the original IDOL™ from years past as a legend, just ask Kris Prather. He and countless other success stories from around the globe are the reason we placed the legendary Ikon™ Core inside our newest never seen before coverstock technology known as XtremeTrax™. This new formulation features both nano particles and chemical additives to bring an entirely new reaction to the Roto Grip family of coverstocks. While the nano particles provide traction on oil, the chemical additives provide more responsiveness to friction. Thus, bridging the gap between our MicroTrax™ and eTrax™ materials.
