

# A FUTURISTIC DESIGN

from **Roto-Grip**

the pioneer in custom  
made bowling balls.

## THE ROTO-STAR X-4

The totally new **Roto-Star X-4**, a new concept in manufacturing bowling balls.

An exclusive **WEIGHT BLOCK** that is so concentrated it maximizes the **HITTING POWER** and minimizes **BALL DEFLECTION**.

An **EXTRA THICK SHELL** to aid Hitting Power.

A new **DENSITY** relationship between the **WEIGHT BLOCK**, **THICK OUTER SHELL** and special formulated **CORE** makes the **ROTO-STAR X-4** the most advanced design in bowling balls.

**THE ROTO-STAR X-4** is a solid sienna color polyester ball with a hardness of 75 to 80 type D, measured at a mean temperature of 70° F.

***Truly a ball created for all lane conditions . . .***

***SCORE MORE with the 'X-4'***
