

FEEL THE RUSH!

ROTO GRIP, INC.
P.O. BOX 94
BRIGHAM CITY, UT 84302

THE RUSH™

In today's Fast-Paced and High Scoring environment your equipment must have the technology and the horsepower to stay ahead of the competition. Roto Grip has delivered once again with the introduction of the Rush™.

The Rush™ is powered by an all new Hemispherical – "Hemi" core. This low RG/ medium differential "Hemi" increases the spin rate for earlier mid-lane traction with continuous acceleration to the finish line.

The tread on the Rush™ consists of an all new Post-Trac™ solid reactive coverstock designed for added traction and continuous backend motion.
