

Let us show you the way!

As the sun falls below the horizon we look to the stars for direction. Let Roto Grip® show you the way with the all new RS-X™. This all new mid-price release combines classic looks with superior performance to deliver what will be one of the best balls on the market today!

Once again we have stepped to the forefront with the introduction of the "all-new" **Sure Grip Extreme™** reactive coverstock. This highly enhanced solid reactive coverstock gives you superior traction in the most solid of oils along with unparalleled energy at the breakpoint. This translates into big mid-lane motion and powerful backend reaction.

The power cell inside this new Roto Star is the **Rotary III™** core found in the already popular RS-1™. This low RG high differential power plant brings it all the way through the lane on those medium to heavy conditions.

Reach for the Star and leave the competition lost in the Dark!
