# EQUALIZER

## EQUALIZER™

The newest addition to the Tenaci core line, the EQUALIZER, replaces the original Raging Bull as the most aggressive bowling ball we have ever produced.

The EQUALIZER, like the Venator series utilizes the revolutionary Tenaci Core allowing you to create unparalleled mid-lane read and drive through the pins.

For the Equalizer, we have debuted a brand new coverstock, INFENSUS. The Infensus coverstock has been developed to provide controlling traction in oil and insane amount of grip on the back end.

The EQUALIZER is the heavy oil ball against which all others should be measured.
