

EUPHORIC TSE

EUPHORIC TSE™

The Tournament Special Edition line has been created to give bowlers the perfect compact arsenal to cover all eventualities in tournament play. The TSE versions bridge the gap between balls in a line to offer the best mix with just one ball.

The Euphoric TSE is designed to sit directly between the Euphoric and Euphoria in overall strength. The TSE polished solid reactive cover provides easy glide through even lighter oil volumes but generates enough "pop" on the back end to get round the corner even from very deep inside angles.

If you are creating a tournament arsenal, you really have no need to look past the Seismic TSE line.
