

VENATOR™ PEARL

The Venator Pearl brings you a pearl ball with unrivalled mid-lane aggression.

The super high mass bias differential of the Tenaci™ Core gives you eye-popping torque in the mid and late part of the lane, while the strong S.F-8/8 cover helps the ball glide through the oil and grab hard on the dry outside boards and back end.

Strength, Control and Predictability are the fundamental elements of every Seismic bowling ball.

Your decision for the “Strong Pearl” spot in your arsenal just got a lot easier.
