

A pins worst enemy

Dyno-Thane Special EFX.

Higher radius of gyrations with a larger differential for later hook and flare, and a greater angle of entry into the pins. That is exactly what DT engineers, PBA Champion Wayne Webb and the rest of the D/T PBA staff were looking for, that something SPECIAL!! The SPECIAL EFX with the DT dual density bell/flip core combined with our most aggressive cover stock ever, *HD* will make the pins and the competition want to disappear. Don't do the pins or the competition a favor. Buy a SPECIAL EFX at your pro shop today!!

With the SPECIAL EFX,
the pins won't standa chance!
