

What Pros Say About THE RE-ACT ATTACK

Reactive
Urethane
Under \$100 Retail

This seems to be a great Reactive Ball, Not a great "over-Reactive Ball".
...I know what the ball is going to do...We should sell a lot of these balls.
Jim Shelly, ABC West Lanes, Mechanicsburg, PA

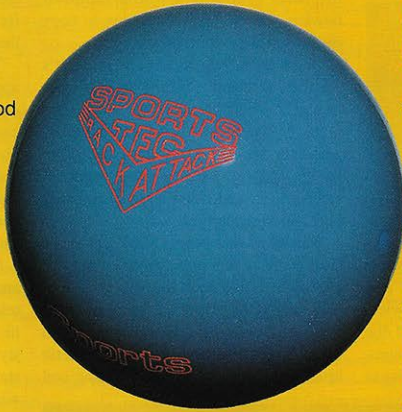

This ball has great potential...
I had people eyeing the ball
to replace their [Brand A]
[Brand B], [Brand C] -
Because it would not give
the over/under reaction
the others did.

Wm Dale Underwood
Spare Time Sports
Waldorf, MD

This ball is the least
over-reactive of the
reactive resin balls...
the ball is very
predictable... The thumb
will have less of a
tendency to hang in
the ball...

Jeff Howell
Ball by Howell
Fishkill, N.Y.

Makes a very predictable
and positive move toward
the pocket with good hitting
power... Color of coverstock
is good which should
appeal to...introductory
customers.

Ted Thompson
Galaxy Lanes
Bradenton East
Bradenton, FL

Very simple to layout.
Reaction that was designed
in to the layout was seen on
the very first throw of the
ball. Predictable reaction,
very forgiving ball...Register
the ball with the PBA so it
can be used in Regional
Events...

Rick Oelkers
Rick's Pro Shop
Valdosta, GA

"... a quality Reactive Resin cover, it's very tacky and it has held up very well with minimal tracking... it's the right price for those wanting to try R.R. without spending an arm and a leg...It will work on a wider variety of lane conditions...more people will be able to use this ball that could not use R.R. before."

David Peters, Harbor Lanes, Eureka, CA

AT LAST! A REACTIVE URETHANE BALL WITH CONTROL AND CONSISTENCY
