

El Niño GOLD

El Niño Gold™

Strike Gold This Summer. With the essence of the original El Niño™, Storm has refined and modernized the El Niño Gold™ setting a new standard (gold) in bowling.

These unique features include:

Improved Motion Control Core™ - Increased density for enhanced coefficient of restitution (hitting power) and unequalled pin action.

ACCU-Tread™ Reactive Coverstock - The purest reactive material EVER. No Additives - No Preservatives - Just Pure Reaction!

ULTRA-FLECK™ - Smaller than REACTA-FLECK™, Ultra-Fleck provides a discriminating amount of porosity for an even reaction on the lane.
